This is an ex-demo unit and has been used.

The Stihl MSA 220 is a robust and powerful battery-powered chainsaw that is designed for felling, pruning, cutting to length or building with wood. It has similar power output to the petrol MS 201, making it an ideal all-round chainsaw for professional users.

It is fitted with a 14" guide bar which makes it ideal for versatile tasks around the work site or on large properties. It can fell small trees of up to 25cm in diameter.

The MSA 220 comes as standard with a 3/8" P - PS3 Pro saw chain for 20% more cutting performance compared to the 3/8" P - PS saw chain. It has optimised energy efficiency and a 10% increase in the number of cuts per battery charge thanks to this saw chain.

**Battery and charger not included.**
