Description

New Husqvarna Automower 410XE NERA For Sale

Specification Includes:

- For lawns up to 1000 m².
- It minimises the need to trim the edges of your lawn, saving time and effort with the EdgeCut feature.
- The 410XE NERA offers the option of a wire free installation via satellite technology or installation with physical boundaries.
- Tailor the lawn to your needs by creating multiple work areas with different settings via the Automower® Connect app.
- Temporary stay-out zones can be created to preserve seasonal wildflowers or garden project areas.
- Precise mowing is achieved with a reduced risk of impact and unplanned stops due to the sensors on the mower which detect and avoid obstacles.
- Stay in control by monitoring your mower from anywhere in the world and integrate it with your smart home via the Automower® Connect app. Send commands, create and adjust zones, view and change your mower settings and receive notifications for complete lawn control.
