In Stock

Description

New Husqvarna Automower 560 EPOS For Sale

Specification Includes:

- Wire free
- For efficient commercial turf care, ideal for sports training pitches and all kinds of corporate and municipal estates.
- The satellite-based Husqvarna EPOS® technology enables wire free installation, reducing downtime and allowing you to customise work areas and set temporary stay-out zones.
- Pivoting front-wheel axle
- Easily handles uneven surfaces and slopes with up to 50% (27°) incline.
- Satellite correction data can be received via the Husqvarna Cloud at no additional cost, provided a constant internet connection via a mobile network is available. Where mobile network coverage is limited, or where the highest possible level of accuracy is required, the use of an EPOS® RS5 or EPOS® RS 4G reference station is recommended.
