SHOP HERE - [Stihl RMI 422 P iMOW® - For lawns up to 1,500 m² - Cornthwaite Group - eShop](#)

The STIHL RMI 422 P iMOW® robotic mower combines a number of features to make it the ultimate convenience mower.

Within the tailored active times, the smart robotic mower automatically picks the optimum mowing windows for the best possible cut using the rain sensor and a comparison with online weather services. The RMI 422 P has a long life Lithium-Ion battery, which makes the iMOW® robotic mower **perfect for medium-sized lawns up to 1,500 m²**.

This robotic mower **supplies your lawn with nutrients**; it cuts and shreds the grass in one step, returning the clippings to the soil, where it acts as a biological fertiliser for a lush, healthy lawn.

If the garden is steep or uneven, the adaptive slope speed function adapts the speed on a **gradient up to a 40% incline**. If the iMOW® robotic mower encounters any obstacles when mowing, sensors in the movable hood detect the impact and the machine sets off in a different direction.

The RMI 422 P comes with a **5 year extended domestic warranty** (subject to registration and annual servicing).

The STIHL iMOW® robotic mowers comply with all applicable safety standards. However, the iMOW® robotic mower is not a toy. During the iMOW® robotic mower's active times, children, bystanders and animals must be kept out of the working area. **Please refer to the operating instructions for further information.**
